Buy an IBM Storwize V3700 and get a software license for free

The outstanding features on the four software options that form part of this offer will add significant value to your storage solutions and ensure that you can address growing data requirements and deliver better performance more efficiently and more cost effectively.

FREE software license

The offer

Buy an IBM Storwize V3700 and get one software license for free.

You can choose between one of the four eligible products.

Valid dates

This offer is valid until **30th June 2014.**

Eligible products

Software Feature	Description
Turbo Performance	Increases system maximum input/output operations per second (IOPS) by 50% and maximum throughput by 100%[1]
Remote Mirroring	Allows synchronous or asynchronous data replication between any Storwize® family system for maximum flexibility and backup efficiency
Easy Tier®	Provides automatic migration of frequently accessed data elements to flash storage, to deliver better performance while controlling costs
FlashCopy® Upgrade	Create a near-instant copy of active data that can be used for backup or for parallel processing activities; support backup for recovering corrupted data

In order to be eligible for this promotion, the configuration has to include at least one IBM Storwize V3700 controller and minimum 6 HDDs[2].

Don't miss this amazing money-saving opportunity
